

Beyond divorce

Beyond Divorce is an educational program for families in divorce situations. The course helps parents cope more effectively with the problems that often result from divorce, teaches them how to help their children cope during the stressful transition, and provides advice on how to co-parent so that everyone in the family can maintain healthy relationships.

How the program works:

Parents attend one 4-hour class. Divorcing parents must attend separate sessions.

Each person attending must call to register for the course.

Beyond Divorce fulfills the court requirement of four hours of co-parenting education.

The \$50 program fee must be paid one week prior to class.
